188 SUITS FILED IN CIRCUIT COURT

SEPTEMBER TERM, BEGINNING ON
27TH, TO BE FAIRLY BUST.

STATE HAS 45 CASES; MAJORITY FOR GAMING

Twenty-seven Charges in Criminal Division for Gambling.—Jury
of 21 Summoned.

When the September term of the circuit court convenes here Monday, September 27, Judge W. C. Ellison will have presented to him a total of 188 civil and criminal cases, according to the docket compiled today by Circuit Clerk Henry Westfall. Of this aggregation, forty-five are criminal cases brought by the state of which twenty-five, or more than half, are on charges of gaming, while 143 are civil cases.

In the civil docket there are but nine in the department of paroles, forty-nine in equity and eighty-five in trial suits.

While the docket this time will not be as heavy as the one of last September, it will be considerably heavier than the docket for either the January or the April terms of this year.

Most of the civil and criminal cases are of minor importance, except to those directly concerned.

Many Held for Gaming.

Most of the gaming charges were brought as a result of the grand jury probe last spring and directly prior to the inquisition. Perhaps one-half of the twenty-five cases of this kind originated in the vicinity of Burlington Junction. One other charge is for keeping a gaming device, and still another for permitting such a device to be operated on one's premises.

There are also nine charges of peace disturbance and one appeal in the criminal division, one for operating an automobile while intoxicated, another for operating an automobile without consent of owner, one for forgery, one for furnishing intoxicants to a minor, two for assault and two for carnal knowledge.

In the equity docket, there are many suits to perfect title and partitions and two who seek naturalization papers. There are also nineteen divorce suits and another to annul a marriage contract.

Choose Jury of 24.

In the trial docket there are twelve suits for damages, seventeen for taxes, fifteen on appeal, sixteen on notes, and the remainder for attachment, accounts, replevin, contract and mechanics lien.

A petit jury list of twenty-four has been chosen for hearing the various trial and criminal cases to be tried before a jury. The jurors will not be asked to report before Tuesday, September 28.

The first day of court will be devoted to the hearing of paroles after which comes the equity suits, then the trial suits and lastly the criminal cases. The trial suits are not due to begin until October 1, and the criminal or state cases until October 5.

Many of the equity and trial suits are expected to be continued or dismissed when brought for trial. One divorce suit has already been dismissed. Several of the cases are continued over from previous terms.

EXCEEDED SPEED LIMIT; \$5.

Theo Robinson and Clarence Cook
Fined by City for Fast Motoring.

Theo Robinson and Clarence Cook were each fined \$5 and costs of \$6.10 in police court late yesterday afternoon on their plea of guilty to charges of having exceeded the speed limits in motor traffic. Each was charged with having raced Sunday night on West First street, preceding the collision of Cook's machine with one driven by Delbert Vert.

WABASH ENDS IMPROVEMENTS

Convert Trestle Into VMI and Cut the
Grade at Normal in Half.—
Change Tracks.

The improvement work on the Wabash here, which was begun early this summer was brought to an end last night, with the completion of the big fill at the trestle work in the north-east part of the city and the reduction of the Normal hill grade from 1.35 to .64. The main line track also has been relaid from the passenger station, west beyond the Normal hill, and a new switch track installed along the freight depot.

Edward Gill, assistant engineer of this division of the Wabash, who has been supervising the work will probably remain in Maryville a few days yet.

DR. LEON YOUNG TO SPEAK

Nebraska Pastor Will Make Closing
Address Tonight at Presbyterian
Convention at Hopkins.

Dr. Leon Young of Lincoln, Neb., who is one of the most prominent men among the Presbyterian denomination, will make the closing address tonight before the Pre-Presbyterian institute on missions of the St. Joseph presbytery, which opened at Hopkins last night.

The subject of Dr. Young's address will be "Foreign Missions and War." Rev. W. H. Ferguson will be the presiding minister.

About twenty-five delegates and ministers are in attendance. The meetings are held in the Presbyterian church.

The Rev. H. A. Sawyers of Savannah presided over the afternoon session which included addresses by the Rev. William Moll Case of this city, the Rev. A. E. McElhoolan, the Rev. D. M. Claggett and Dr. C. E. Benham.

RISK FIRM TO NAME OFFICER

Local Insurance Company Elects
Successor Next Week.—May
Choose His Daughter.

A special meeting of the board of directors of the Farmers Mutual Fire and Lightning Insurance Company of Nodaway county, will be held next week, probably Wednesday, September 22, to elect a secretary to succeed A. Shiel of Burlington Junction, who died last week. Miss Iuka Shiel, a daughter, may be named as she has been associated with her father in the transaction of the risk business and the last few months has virtually been in charge.

While the directorate consists of nine, not more than seven will be present according to W. M. Blackford, a director of the company today. Robert Gex is now in Texas, while another director will probably be out of the county next week.

The other officers of the insurance company are: James Hepburn, Hopkins, president; C. D. Hooker, Maryville, vice president; William Woods, treasurer.

MRS FRANK HEADS W. C. T. U.

City Temperance Organization Held
Annual Business Meeting and
Election of Officers

Mrs. J. D. Frank, who has been president of the city W. C. T. U. for the past year, was yesterday re-elected to the office for the coming year at the annual election of officers and business meeting of the union held at the First Christian church.

The others chosen were five vice-presidents including one from each church in the city, who were Mrs. Eugene Ogden, Mrs. H. T. Crane, Mrs. E. B. Sheldon, Mrs. C. A. McCoppin, and Mrs. F. P. Robinson; recording secretary, Mrs. W. A. Burris; corresponding secretary, Mrs. R. L. McDougal; treasurer, Mrs. R. L. Finch.

The regular program of the day was given and to it was added a vocal duet by Mrs. R. L. Finch and Mrs. Harry Todd, which was very pleasing.

The October meeting will be held on the third Wednesday afternoon of the month, at the home of Mrs. J. D. Frank.

To Attend Chambers Academy.

Mrs. William Foster will leave the last of the week for Omaha, Neb., to take a special course of instruction in the late dances at the Chambers dancing academy.

BEGIN NORMAL WORK

STUDENTS ENROLL TODAY FOR
TERM BEGINNING TOMORROW

EQUIPMENT ADD TO VALUE

Increased Facilities for Pupils, Including
New Tutors and Studies, Indicates
Term Will Be Successful

With an increased faculty, greater range of studies, better and enlarged equipment and general reference facilities, the 1915-16 term of the State Normal School, the fall quarter of which begins tomorrow, bids fair to be one of the most successful to the students in the history of the Normal. The outlook for a large attendance also is good.

The registration for entrance began this morning with quite a group of young men and women in line, both at the Normal, where application is made and also at the Farmers Trust Company bank, where George Kemp, treasurer, receives entrance dues. In fact the payment of entrance fees really began yesterday, and is expected to continue several days. There also are "stragglers" for several weeks after a quarter starts.

Normal Facilities Increased.

This year the Normal is able to present several varieties of certificates and diplomas. They are the rural or common school certificate, the elementary certificate, the elementary school diploma, the advanced diploma and the degree course diploma, ending in the degree of bachelor of science in education.

All the Normal teachers are now in Maryville or are expected to be here at the beginning of studies tomorrow, so that the fall quarter will start off in full swing at the very start. In addition to the old "heads" and "wheel horses" on the Normal faculty, there also are four new instructors.

They are L. W. Greathouse, in department of commerce; Henry H. Severin, in biology, who succeeds John E. Cameron; Mrs. Bertha L. Hook, in modern languages and Miss Mary H. Boggs in physical education for women. Milton S. Hoose will succeed M. W. Maxwell as secretary to President Ira Richardson.

Washington, Sept. 14.—There was great elation in official circles here today when it was learned that Berlin has endorsed the pledge made to the United States as to submarine warfare by German Ambassador Von Bernstorff here. It makes it plain that Germany desires to reach an amicable agreement in the entire submarine question.

Washington, Sept. 14.—Hopes for a complete adjustment of the differences with Germany and Austria were expressed in official circles today. Direct diplomatic negotiations have been substituted for the long drawn out negotiations.

German Ambassador Von Bernstorff will hold frequent conferences with Secretary of State Lansing and will personally interpret Berlin views on various matters.

It is believed Austria's orders for the recall of Dr. Dumba are already on the way to the United States although nothing official has been received by the state department.

Berlin, Sept. 14.—The foreign office announces that "the German declaration that passenger ships are not to be torpedoed without warning unless they try to escape or resist, holds good in the Arabic case and is merely a difference of opinion about facts and does not affect the principle of the declaration."

MARYVILLE STATE NORMAL SCHOOL

One of the most successful terms in the history of the local state Normal school is anticipated, with the beginning of the fall quarter of the 1915-16 term here tomorrow morning. This makes the tenth year for the state institution, during which time it has

steadily grown until this summer there were 539 young men and women enrolled.

Under the direction of President Ira Richardson, the school has especially grown in both number of students entered and also in the facilities and equipment of the institution. That

the term which begins this week, will be even more prosperous to students, is indicated in various ways, among them being through increased studies additional equipment of laboratory and library and the inauguration of new departments and the granting of more kinds of certificates and diplomas.

CORN IS KING.

Maize, commonly called Indian corn, was unknown in civilized countries prior to the discovery of America, yet it has become one of the leading grains of the world. The value of this crop in the United States is nearly if not quite equal to that of wheat and cotton, the two crops next in value.

There are annually planted in this country over one hundred million acres of corn, and the average yield is about 26 bushels, and we are told that if an additional small ear weighing half a pound was added to each hill, this would double the yield. This means that the hills only average one small ear. More than 200 bushels have been produced on a single acre. This shows the average yield ought to be more than doubled.

Poor seed is said to be responsible for the small average yield. All production depends more on good seed than people usually think. Plant an acre in the highly improved seed and another in unimproved seed, give equal tillage, and the yield of the one may be double or more than that of the other. In corn more than other grain the germinating qualities has much to do with the yield. If the seed is strong in the vital element, the plant will come up strong and start off vigorously, provided conditions are at all favorable. But if the vital element is weak, the grain will rot in the ground if conditions are a little unfavorable, and if the grain germinates the plant will be weak and if it ears at all it will be small. Seed strong in vitality is necessary for a good crop. Then the right variety is essential to a large yield. Cattle bred for flesh is necessary in producing beef at a profit. So corn bred to produce large ears will give the most satisfactory results.

So the seed is one of the very important things at the foundation of corn production. The farmer who procures highly improved seed and then in the fall gathers seed for the next year from the best and most productive stocks, will make a wise start for the coming crop.—Shelbina Democrat.

DEMOCRATS PLAN BIG RALLY

Champ Clark, James A. Reed, Stone and Others to Speak at St. Joseph October 1.

Friday, October 1, will be a red letter day in the Democratic history of Northwest Missouri, for on that date it is expected to have one of the greatest and grandest outpourings of the Democrats of the state ever held in St. Joseph.

St. Joseph has been selected for the point in which to open the national and state campaign, and on that date an aggregation of the most prominent Democratic speakers of the state, headed by that great son of Missouri, the peerless Champ Clark, speaker of the national house of representatives, will tell of the accomplishments of the party under our great President Woodrow Wilson, and will outline the work that must be accomplished in the future in order that the people of the United States may be blessed with that prosperity and contentment which should be their portion.

St. Joseph Democrats, under the auspices of the famous Monroe club, will have charge of the arrangements, and will see to it that every visitor is given a hearty reception and his stay made pleasant. While the meeting is under the auspices of the club, it is in fact a joint meeting of the Democracy of the state and party, and each and every member is responsible for his appearance and his joint help in directing the conduct of the occasion.

St. Joseph has one of the most magnificent auditoriums in the state, capable of seating 20,000 people, and no one who attends need fear that he will be provided with ample facilities to see and hear.

Champ Clark will be the principal speaker, and United States Senators William Joel Stone and James A. Reed will also speak. Governor Major will be present with all of the state officials, and every Democratic congressman in the state will be on the speakers' platform.

Every prominent Democrat in the state has been invited.

CONTROL HOG CHOLERA

Some Facts Given in Waging
War on the Dread Disease.

It Must Be Remembered That Serum
Is Preventive, Not a Cure—Two
Different Methods of Applying
Are Described.

(By DR. K. W. STONDER, Iowa State
College.)

Hog cholera serum is the only thing known which will prevent or control hog cholera.

Hog cholera serum is nothing more or less than the blood of hogs which have been immunized against hog cholera.

There are two methods of applying the serum, the single treatment and the serum-simultaneous. The first consists merely of injecting a quantity of

Disinfecting Site of Injection.

serum proportionate to the weight of the hog. This gives an immunity lasting from three to six weeks. This method never hurts any hog, even if given in heavy overdoses.

The serum-simultaneous is the same as the single treatment with the addition of a small quantity of virus or blood containing the germs capable of producing cholera. This gives the hogs immunity for life, except pigs vaccinated before eight weeks old.

Some losses have been reported from the serum-simultaneous treatment. They are the faults of methods or materials rather than the treatment. Poor serum of low potency and untested is the chief factor in

Injecting the Serum.

the failure of this treatment. Too low doses, or improper application of the serum are all causes of failure.

Records kept on 20,000 hogs show a loss of less than two per cent when treated by the simultaneous method. All were made immune, some for three years.

Here are the facts in waging war on hog cholera by the simultaneous treatment:

Hogs can be made immune. If healthy when treated, and if reliable, tested serum is employed together with good virus, there is no doubt that the serum simultaneous treatment is a success.

Hog cholera serum in any process will give good results on healthy hogs, and better than nothing on sick ones. It must be remembered that hog cholera serum is a preventive, not a cure.

When serum is to be used, first get all the pigs together in a pen so they may be caught easily. Too much exercise before injection is not good for the animal.

Injection may be on inner side of a rear leg or in armpit; either spot must be cleaned carefully, using first warm water and soap and following with alcohol or a three to five per cent solution of carbolic acid.

All vessels and instruments must be sterilized before use and the operator's hands should be cleaned, disinfected and kept so.

STANCHIONS FOR THE CALVES

Youngster Will Not Worry About Neighbor Getting Part of His Mess and Will Drink Slowly.

Harmful results are frequently brought on in young calves by their drinking milk too rapidly and too much at a time.

Feeding small quantities and often, which is the natural plan, is the way to avoid trouble from this source.

Where several calves run together stanchions for feeding may contribute to less rapid drinking, for with stanchions the calf is not worrying about one of its neighbors getting part of his mess and is thus encouraged to drink more slowly.

Distemper in Horses.

Strangles, or as it is commonly known, distemper, is a contagious and infectious disease seen most frequently in young animals. One attack generally produces an immunity which lasts for life, therefore is seldom seen in older animals.

PUBLIC HIGHWAYS

MANY STATES USE CONVICTS

Different Systems of Employing Prison Labor on Public Highway Improvement Is Described.

Thirty states at the beginning of the present year had on their statute books laws providing for the employment of state prisoners in road building. Arizona, Arkansas, Idaho, Louisiana, Maryland, Montana, Nevada, New Jersey, New Mexico, Ohio, Oregon, Virginia and Washington follow practically the same system, providing that the control of this work shall be vested in the state highway commission. The highway commission or state engineer makes requisition for such number of prisoners as he can use effectively, and the prison authorities turn over to him such prisoners as are suitable for the road work.

The prison commission or board of control of state institutions is held responsible for the development of

Convicts Building Good Road.

the convict road work in some nine states—Colorado, Indiana, Iowa, Kansas, Michigan, Missouri, North Dakota, Oklahoma and Wisconsin. State prisoners are turned over to the county authorities to be worked on the county roads in Florida, Georgia, North Carolina and South Carolina. This system is not approved by the national committee on prisons and prison labor, which holds that the state under no circumstances is justified in delegating the responsibility for its convict wards to county authorities.

The system in New York state divides the responsibility for the construction work and maintenance of the camps between the state highway department and the commissioners of the counties in which the roads are to be built, with the state superintendent of prisons in final authority. In Utah, West Virginia and Wyoming the highway department and the prison department co-operate in the control of this work. The prison department is fully responsible for the care and discipline of the prisoners, while the road department is called upon to do the work which it is equipped to do, the building of roads.

The committee has found this latter system essential to the successful development of convict road work. The prison department is in a position to care for the prisoners and to handle such matters as food, clothing, housing, medical attention, the affording of educational facilities and recreation.

GOOD ROADS ARE INCREASING

United States Leads France in Miles of Improved Highways—State Aid Now in Effect.

According to the Good Roads Year Book of the American Highway association, recently issued, America now has 6,000 miles more of good roads than France, the total for this country now amounting to 31,000 miles. Of this 6,000 miles were built in 1912 and about 6,000 in 1914, making a total of over one-third of the entire mileage of the good roads of the country.

New Jersey was the pioneer state to provide state aid for public highways, in 1891, and Massachusetts and Connecticut soon followed, but it is only during the last ten years that the state aid policy has been in effect to any considerable extent.

Los Angeles to Improve.

Seven million dollars will be expended on the roads of Los Angeles in 1915. Three hundred and twenty-four miles of concrete boulevard and 160 miles of decomposed granite highway will be constructed.

Farmer Realizes Value.

No other citizen realizes the value of good roads as does the farmer.

You want to be well quick.

A great many people in Missouri and thousands all over the country have found the way to health by the use of May's Wonderful Remedy. The first dose shows results. Here are the words of two Missourians:

Mrs. J. B. Trullinger of Norborne, Mo., wrote: "Words cannot express my appreciation of your medicine. I have felt fine all summer and fall. Am gaining weight."

W. T. Jennings, cashier of Bank of Bois D'Arc, Mo., writes: "Please send four more bottles of the stomach remedy. Both my wife and I use this medicine and think it truly wonderful."

May's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

LIVESTOCK MARKET WEAKER

Heavy Runs Bring Cattle Prices Down. Hogs and Sheep About Same. Special to The Democrat-Forum.

Kansas City, Sept. 13.—Price readjustment continues in the cattle trade. The best cattle, both fed and grass, advanced 5 to 20 cents last week, but medium and lower grades sold barely steady, lower in some cases. The supply today is 28,000 head, and the market is slow, prices 10 to 15 lower on a part of the cattle, weak to 10 lower on the bulk. Numerous lots of good fed steers sold at \$9.45 to \$9.65.

Bulk of the cattle came from Kansas, of course, shippers in the pasture country giving the market a trial, and the impression is out that if prices this week, are not sufficient to pay out on the cattle, or make a profit, arrangements will be made to go into winter quarters. The best Kansas grass steers were unsold at noon, as arrivals were late today, but numerous sales had been made at \$7.00 to \$8.10, including a string of "J. A." steers at \$7.80, to killers.

There are a large number of stocker and feeder buyers here, but they have their pegs set at a low figure, and the market is weak. Good grades are selling around \$7.25, with fancy cattle up to \$8.25, and common grades at \$6 or less, the latter class being slowest to move. It is a good time to buy for if the threat to put cattle on feed holds good, which has been made in both Kansas and the Panhandle, receipts will not be extra heavy, while there is a great section of country depending on this market for stockers and feeders this fall and in the biggest part of it stockmen are low on cattle.

Quarantine receipts were again light, steers selling at \$5.75 to \$7.50.

Hogs were in light supply, 5,000 head market steady on light hogs, lower on heavy weights. The market is a two sided affair, demand for fresh pork and smoked meats sustaining prices on hogs suitable for manufacturing that class of product, while the big weight stuff, and mixed packing, are not needed to fill any crying necessity, hence

prices on that kind lag.

The range on bulk of sales today is \$6.50 to \$8.00, all the desirable light weight hogs selling at \$7.50 to \$8.00, while rough heavies sold down to \$6.25. Highly mixed hogs are almost invariably sold in several lots, hog sorting having become imperative recently, as is the sorting of cattle, in order to realize best results for the shipper.

Sheep and lambs arrived to the number of 22,000 head, which included 5,000 head of Jim Starr's feeders going through to Missouri points. Fat stock is 10 to 15 lower, best range lambs \$8.50, native lambs \$8.00 to \$8.25. Fat ewes bring \$5.25 to \$6.00, and native black face breeding ewes sell up to \$7.25 or better, common breeding ewes around \$5. Large numbers of western feeding ewes are selling at \$5.00 to \$5.65, good mouth western feeding ewes at \$6 to \$6.75, feeding yearlings \$6.50 to \$7, plenty of all kinds available.

The MONARCH in Course of Constrction

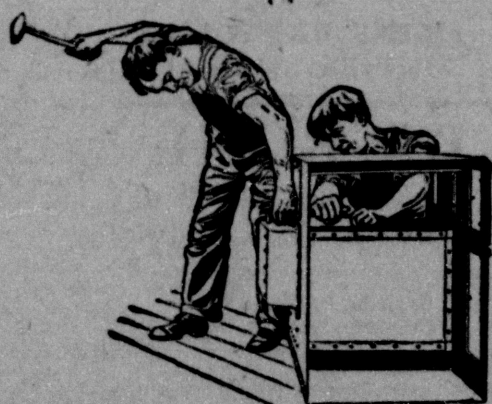

Every door frame is Malleable iron, every angle bar is Malleable iron.

The Body of The Monarch

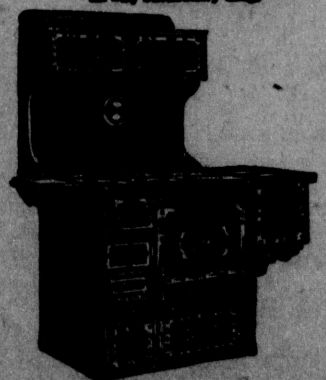

The inside wall is annelled steel, the center wall is of asbestos stove board, the out-wall of American planished steel.

What is Malleable Iron?

The best soft gray cast iron annealed and when thoroughly annealed becomes the best heat transmitting and resisting iron used in range construction. Every joint in the MONARCH is riveted and is gas and air tight. For the rivets are of the same textrial temperment as the material they hold together thus making the expansion equal. The construction of the fire box either makes or destroys the life and efficiency of the range and this is the Monarch's strongest point. Let us show you why.

A Railroad Man for Clarissa.

Irvin S. Cobb is responsible for this negro story:

Mose had been hit by a shifting engine in the freight yard, and his parts were so widely dispersed that they had to put him down as a total loss. Even before the engine slowed down the claim agent was on the job, and had his widow in tow, leading her toward the office of the company.

With Clarissa was Hannah, a back fence friend. When the trio reached the railroad office, the agent produced some papers and began filling them in. "Now, then, Clarissa," he said, "all you have to do is to sign right here, agreeing to bring no action against the company for your husband's death, and I will make you a present of these five nice, new \$100 bills."

Clarissa's eyes bulged out like a crab's. Hannah turned to her and gasped. "Lan' sakes alive, chile, what yo' gonna do wit' all 'at money?"

"Oh, ah'll buy chickens, an' water-melons, an' a new house, an' 'bout a hundred dresses, and jes' whatevah ah needs fo' de resta mah life."

"Don't you need anotha husband?" asked Hannah.

Clarissa fanned herself with one of the new \$100 bills.

"Well, ah don't know 'bout dat, but ef ah evah does get married agin, it'll sholy be a railroad man."

A CORRECTION.

The Base Ball Tournament At Clearmont Was a Success—Hopkins and Clearmont Divided First and Second Money.

In the base ball tournament at Clearmont, which ended Saturday, Clearmont and Hopkins divided first and second money, giving each team \$112.50. Hopkins had won two games refusing to play the last game Saturday against Maitland, who had engaged four players who had been with Clearmont. Clearmont defeated Pickering 4 to 0 on Saturday instead of Pickering defeating Clearmont as stated in yesterday's paper. Pickering and Maitland divided third and fourth money, each receiving \$62.50.

The base ball tournament was a success and if the weather had been good, a nice sum of money would have been realized from the tournament by the Clearmont team. This correction is printed, as the information this paper received yesterday in regard to the tournament was not correct.

MAY LOSE CITIZENSHIP.

Status of Baltimoreans Fighting in Europe Is in Doubt.

Baltimore.—A question of law may arise if the young Baltimoreans now fighting in Europe, John Poe, John Sydney Howell, Alexander Godby and Martin D. Monaghan, attempt to return to their native land. It is held by the department of labor that by taking up arms they have expatriated themselves. This was the finding in the case of Frank Caswell of Harrison, Me., a trooper of the Canadian contingent, who attempted to come home, but was held up by the authorities on the ground that he had ceased to be a citizen of the United States.

Local officials declare that a different light may be thrown on the subject when it becomes known under just what conditions these young Baltimoreans enlisted. If they swore allegiance to the flag under which they aspired to fight they of course ceased to be citizens of the United States, but there appears to be doubt as to just what the foreign powers exact of their recruits.

RICH OCTOGENARIAN AGAIN PROSPECTING

Goos Back to Scenes of Early Success in "Fifties."

Forest, Cal.—The spectacle of an old man, eighty-five years of age, fitting himself out as a prospector and taking his blankets into the hills after sixty years' vacation from the same sort of work proved interesting to the residents of this old mining camp. What made the incident more interesting was the fact that the prospector is a wealthy man and has no need for any more of this world's goods.

The stranger is James C. Chase, who mined in the headwaters of Jim Crow canyon in the early fifties and who took out enough to enable him to live in comfort among his relatives ever since.

He took his "pile" and later invested in the rich apple district in Washington and recently came to California to visit the fair. The call of his early life rang in his ears, and he could not resist the temptation to cover the ground where he made his fortune in his younger years.

Chase was not so successful in his first day's panning as he was in the fifties, but was delighted when he found color in his pan. "I think I could show some of you old miners a trick in this business yet," said Chase to some of the men who have been mining here with indifferent success for years.

The old man does not look more than sixty and says he can stand camping as well as any man of any age. There are few in this old mining town who really remember the old man as a youngster of twenty-five who made a good "cleanup" and left here in 1855.

HIGH SCHOOL PLAYS BALL

Pirates Defeated Tigers 7-2 at Normal Yesterday.—Pirates Play Braves Tomorrow.

The High School fall baseball season began yesterday at the Normal grounds, with a 7 to 2 victory for the Pirates, captained by Kenneth Van Cleve, over the Tigers, captained by Eugene Yehle. The battery for the Pirates was Van Cleve and Egley and for the Tigers, Hagin and Yehle. Each side made six hits, and few errors.

The Pirates will play the Braves, captained by Berney Harris Jr., at the Normal grounds at 4 o'clock tomorrow afternoon.

TO DISCUSS TRAIN CHANGES

Burlington Connection at Creston to be Urged by Civic Club Leaders Here Tomorrow.

A conference of the board of directors of the Maryville Commercial club and representatives of various civic organizations at Barnard, Pickering, Hopkins and Bedford, Iowa, has been called for tomorrow evening in the local Commercial Club rooms, according to W. R. Jackson, club secretary. The purpose of the conference is to discuss the proposed change of the north-bound Burlington passenger train, No. 10, so that connection can be made at Creston with the through east-bound trains.

J. D. Baker of St. Joseph, division passenger agent of the Burlington, has signified his intention of meeting with the civic leaders. The Commercial Club held a meeting recently, with representatives of these towns present, for the purpose of suggesting ways to accomplish this improvement.

HIGH FINANCE THE CHARGE

Trust Company Trial on in Kansas City—Dismiss Indictment Against J. W. Thompson, Reported.

The trial of the defunct American Union Trust company of Kansas City, is being held this week in federal court in Kansas City, the federal grand jury in April, 1914, having indicted five officers and directors of the trust company on charges of using the mails in devising and intending to devise a scheme to defraud.

John W. Thompson, formerly probate judge of Nodaway county, and now living in San Francisco, was one of the men indicted by the grand jury. Thompson having been at that time an officer and director in the Kansas City bank. It is understood that the indictment against Thompson was dismissed, it being on his evidence that these indictments were returned against the other officers and directors of the bank.

The case is being presided over by Judge Wilbur F. Booth and he made this statement, according to the Kansas City Times:

"The evidence may show that some of the defendants did not become connected with the company until some time after its organization. If it is shown by the government that there was a scheme to defraud prior to their connection with the company, it will be necessary for the government to connect the defendants with the scheme. The mere fact that they became connected with the company at a later date does not connect them with any scheme to defraud prior to their connection with the company."

In continuing his statement to the jury Mr. Lynch said it would be shown that certain persons who subscribed for stock in the trust company on its organization did not sign the articles of incorporation. He said J. W. Thompson of Nodaway county gave two notes, one for \$4,000 and one for \$1,000, in payment for stock. John E. Swanger, bank examiner, said the stock must be paid for in cash.

Then, continued Mr. Lynch, J. C. Burch, a \$50 night watchman for Swift & Co., a Nodaway man, was induced to give his note for \$5,000 to the bank. That would be a favor to Thompson and Burch would not be out anything. This note for \$5,000 was approved by the finance committee of the bank, said Mr. Lynch and was allowed as a loan to Burch.

"Burch never got a dollar of the money," exclaimed the assistant district attorney. "But \$2,500 was applied to Thompson's note and the balance went to cover indebtedness of Richardson."

Henry W. Richardson was organizer of the All Night and Day Bank and the American Union Trust Company, and is now said to be in England.

Burch, said Mr. Lynch, was given stock to represent the loan and then Thompson borrowed back the stock, explaining that the bank examiner "was coming around."

"Burch never got his stock back again. He complained to Beery, the secretary of the trust company. Beery told him to employ Davis. And Davis, mind you, was a director of the trust company and its attorney."

188 SUITS FILED IN CIRCUIT COURT

SEPTEMBER TERM, BEGINNING ON
27TH, TO BE FAIRLY BUSY.

STATE HAS 45 CASES; MAJORITY FOR GAMING

Twenty-seven Charges in Criminal Division for Gambling.—Jury
of 24 Summoned.

When the September term of the circuit court convenes here Monday, September 27, Judge W. C. Ellison will have presented to him a total of 188 civil and criminal cases, according to the docket compiled today by Circuit Clerk Henry Westfall. Of this aggregation, forty-five are criminal cases brought by the state of which twenty-five, or more than half, are on charges of gaming, while 143 are civil cases.

In the civil docket there are but nine in the department of probate, forty-nine in equity and eighty-five in trial suits.

While the docket this time will not be as heavy as the one of last September, it will be considerably heavier than the docket for either the January or the April terms of this year.

Most of the civil and criminal cases are of minor importance, except to those directly concerned.

Many Held for Gaming.

Most of the gaming charges were brought as a result of the grand jury probe last spring and directly prior to the inquisition. Perhaps one-half of the twenty-five cases of this kind originated in the vicinity of Burlington Junction. One other charge is for keeping a gaming device, and still another for permitting such a device to be operated on one's premises.

There are also nine charges of peace disturbance and one appeal in the criminal division, one for operating an automobile while intoxicated, another for operating an automobile without consent of owner, one for forgery, one for furnishing intoxicants to a minor, two for assault and two for carnal knowledge.

In the equity docket, there are many suits to perfect title and partitions and two who seek naturalization papers. There are also nineteen divorce suits and another to annul a marriage contract.

Choose Jury of 24.

In the trial docket there are twelve suits for damages, seventeen for taxes, fifteen on appeal, sixteen on notes, and the remainder for attachment, accounts, replevin, contract and mechanics lien.

A petit jury list of twenty-four has been chosen for hearing the various trial and criminal cases to be tried before a jury. The jurors will not be asked to report before Tuesday, September 28.

The first day of court will be devoted to the hearing of probate after which comes the equity suits, then the trial suits and lastly the criminal cases. The trial suits are not due to begin until October 1, and the criminal or state cases until October 5.

Many of the equity and trial suits are expected to be continued or dismissed when brought for trial. One divorce suit has already been dismissed. Several of the cases are continued over from previous terms.

Change Tracks.

The improvement work on the Wabash here, which was begun early this summer was brought to an end last night, with the completion of the big fill at the trestle work in the northeast part of the city and the reduction of the Normal hill grade from 1.35 to .64. The main line track also has been relaid from the passenger station, west beyond the Normal hill, and a new switch track installed along the freight depot.

Edward Gill, assistant engineer of this division of the Wabash, who has been supervising the work will probably remain in Maryville a few days yet.

DR. LEON YOUNG TO SPEAK

Nebraska Pastor Will Make Closing
Address Tonight at Presbyterian
Convention at Hopkins.

Dr. Leon Young of Lincoln, Neb., who is one of the most prominent men among the Presbyterian denomination, will make the closing address tonight before the Pre-Presbyterian institute on missions of the St. Joseph presbytery, which opened at Hopkins last night.

The subject of Dr. Young's address will be "Foreign Missions and War." Rev. W. H. Ferguson will be the presiding minister.

About twenty-five delegates and ministers are in attendance. The meetings are held in the Presbyterian church.

The Rev. H. A. Sawyers of Savannah presided over the afternoon session which included addresses by the Rev. William Moll Case of this city, the Rev. A. E. McGlothlin, the Rev. D. M. Claggett and Dr. C. E. Benham.

RISK FIRM TO NAME OFFICER

Local Insurance Company Elects
Successor Next Week.—May
Choose His Daughter.

A special meeting of the board of directors of the Farmers Mutual Fire and Lightning Insurance Company of Nodaway county, will be held next week, probably Wednesday, September 22, to elect a secretary to succeed A. Shiel of Burlington Junction, who died last week. Miss Iuka Shiel, a daughter, may be named as she has been associated with her father in the transaction of the risk business and the last few months has virtually been in charge.

While the directorate consists of nine, not more than seven will be present according to W. M. Blackford, a director of the company today. Robert Gex is now in Texas, while another director will probably be out of the county next week.

The other officers of the insurance company are: James Hepburn, Hopkins, president; C. D. Hooker, Maryville, vice president; William Woods, treasurer.

MRS FRANK HEADS W. C. T. U.

City Temperance Organization Held
Annual Business Meeting and
Election of Officers

Mrs. J. D. Frank, who has been president of the city W. C. T. U. for the past year, was yesterday re-elected to the office for the coming year at the annual election of officers and business meeting of the union held at the First Christian church.

The others chosen were five vice-presidents including one from each church in the city, who were Mrs. Eugene Ogden, Mrs. H. T. Crane, Mrs. E. B. Sheldon, Mrs. C. A. McCoppin, and Mrs. F. P. Robinson; recording secretary, Mrs. W. A. Burris; corresponding secretary, Mrs. R. L. McDougal; treasurer, Mrs. R. L. Finch.

The regular program of the day was given and to it was added a vocal duet by Mrs. R. L. Finch and Mrs. Harry Todd, which was very pleasing.

The October meeting will be held on the third Wednesday afternoon of the month, at the home of Mrs. J. D. Frank.

To Attend Chambers Academy.

Mrs. William Foster will leave the last of the week for Omaha, Neb., to take a special course of instruction in the late dances at the Chambers dancing academy.

BEGIN NORMAL WORK

STUDENTS ENROLL TODAY FOR
TERM BEGINNING TOMORROW

EQUIPMENT ADD TO VALUE

Increased Facilities for Pupils, Including
New Tutors and Studies, Indicates
Term Will Be Successful

With an increased faculty, greater range of studies, better and enlarged equipment and general reference facilities, the 1915-16 term of the State Normal School, the fall quarter of which begins tomorrow, bids fair to be one of the most successful to the students in the history of the Normal. The outlook for a large attendance also is good.

The registration for entrance began this morning with quite a group of young men and women in line, both at the Normal, where application is made and also at the Farmers Trust Company bank, where George Kemp, treasurer, receives entrance dues. In fact the payment of entrance fees really began yesterday, and is expected to continue several days. There also are "stragglers" for several weeks after a quarter starts.

Normal Facilities Increased.

This year the Normal is able to present several varieties of certificates and diplomas. They are the rural or common school certificate, the elementary certificate, the elementary school diploma, the advanced diploma and the degree course diploma, ending in the degree of bachelor of science in education.

All the Normal teachers are now in Maryville or are expected to be here at the beginning of studies tomorrow, so that the fall quarter will start off in full swing at the very start. In addition to the old "heads" and "wheel horses" on the Normal faculty, there also are four new instructors.

They are L. W. Greathouse, in department of commerce; Henry H. Severin, in biology, who succeeds John E. Cameron; Mrs. Bertha L. Hook, in modern languages and Miss Mary H. Boggs in physical education for women. Milton S. Boose will succeed M. W. Maxwell as secretary to President Ira Richardson.

Washington, Sept. 14.—There was great elation in official circles here today when it was learned that Berlin has endorsed the pledge made to the United States as to submarine warfare by German Ambassador Von Bernstorff here. It makes it plain that Germany desires to reach an amicable agreement in the entire submarine question.

Washington, Sept. 14.—Hopes for a complete adjustment of the differences with Germany and Austria were expressed in official circles today. Direct diplomatic negotiations have been substituted for the long drawn out negotiations.

German Ambassador Von Bernstorff will hold frequent conferences with Secretary of State Lansing and will personally interpret Berlin views on various matters.

It is believed Austria's orders for the recall of Dr. Dumba are already on the way to the United States although nothing official has been received by the state department.

Berlin, Sept. 14.—The foreign office announces that "the German declaration that passenger ships are not to be torpedoed without warning unless they try to escape or resist, holds good in the Arabic case and is merely a difference of opinion about facts and does not affect the principle of the declaration."

Where More Than 200 Will Begin Studies Tomorrow

MARYVILLE STATE NORMAL SCHOOL

One of the most successful terms in the history of the local state Normal school is anticipated, with the beginning of the fall quarter of the 1915-16 term here tomorrow morning. This makes the tenth year for the state institution, during which time it has

steadily grown until this summer there were 539 young men and women enrolled.

Under the direction of President Ira Richardson, the school has especially grown in both number of students entered and also in the facilities and equipment of the institution. That

the term which begins this week, will be even more prosperous to students, is indicated in various ways, among them being through increased studies additional equipment of laboratory and library and the inauguration of new departments and the granting of more kinds of certificates and diplomas.

CORN IS KING.

Maize, commonly called Indian corn, was unknown in civilized countries prior to the discovery of America, yet it has become one of the leading grains of the world. The value of this crop in the United States is nearly if not quite equal to that of wheat and cotton, the two crops next in value.

There are annually planted in this country over one hundred million acres of corn, and the average yield is about 26 bushels, and we are told that if an additional small ear weighing half a pound was added to each hill, this would double the yield. This means that the hills only average one small ear. More than 200 bushels have been produced on a single acre. This shows the average yield ought to be more than doubled.

Poor seed is said to be responsible for the small average yield. All production depends more on good seed than people usually think. Plant an acre in the highly improved seed and another in unimproved seed, give equal tillage, and the yield of the one may be double or more than that of the other. In corn more than other grain the germinating qualities has much to do with the yield. If the seed is strong in the vital element, the plant will come up strong and start off vigorously, provided conditions are at all favorable. But if the vital element is weak, the grain will rot in the ground if conditions are a little unfavorable, and if the grain germinates the plant will be weak and if it ears at all it will be small. Seed strong in vitality is necessary for a good crop. Then the right variety is essential to a large yield. Cattle bred for flesh is necessary in producing beef at a profit. So corn bred to produce large ears will give the most satisfactory results.

So the seed is one of the very important things at the foundation of corn production. The farmer who procures highly improved seed and then in the fall gathers seed for the next year from the best and most productive stocks, will make a wise start for the coming crop.—Shelbina Democrat.

DEMOCRATS PLAN BIG RALLY

Champ Clark, James A. Reed, Stone and Others to Speak at St. Joseph October 1.

Friday, October 1, will be a red letter day in the Democratic history of Northwest Missouri, for on that date it is expected to have one of the greatest and grandest outpourings of the Democrats of the state ever held in St. Joseph.

St. Joseph has been selected for the point in which to open the national and state campaign, and on that date an aggregation of the most prominent Democratic speakers of the state, headed by that great son of Missouri, the peerless Champ Clark, speaker of the national house of representatives, will tell of the accomplishments of the party under our great President Woodrow Wilson, and will outline the work that must be accomplished in the future in order that the people of the United States may be blessed with that prosperity and contentment which should be their portion.

St. Joseph Democrats, under the auspices of the famous Monroe club, will have charge of the arrangements, and will see to it that every visitor is given a hearty reception and his star made pleasant. While the meeting is under the auspices of the club, it is in fact a joint meeting of the Democracy of the state and party, and each and every member is responsible for his appearance and his joint help in directing the conduct of the occasion.

St. Joseph has one of the most magnificent auditoriums in the state, capable of seating 20,000 people, and no one who attends need fear but that he will be provided with ample facilities to see and hear.

Champ Clark will be the principal speaker, and United States Senators William Joel Stone and James A. Reed will also speak. Governor Major will be present with all of the state officials, and every Democratic congressman in the state will be on the speakers' platform.

Every prominent Democrat in the state has been invited.

CONTROL HOG CHOLERA

Some Facts Given in Waging War on the Dread Disease.

It Must Be Remembered That Serum is Preventive, Not a Cure—Two Different Methods of Applying Are Described.

(By DR. K. W. STONDER, Iowa State College.)

Hog cholera serum is the only thing known which will prevent or control hog cholera.

Hog cholera serum is nothing more or less than the blood of hogs which have been immunized against hog cholera.

There are two methods of applying the serum, the single treatment and the serum-simultaneous. The first consists merely of injecting a quantity of

Disinfecting Site of Injection.

serum proportionate to the weight of the hog. This gives an immunity lasting from three to six weeks. This method never hurts any hog, even if given in heavy overdoses.

The serum-simultaneous is the same as the single treatment with the addition of a small quantity of virus or blood containing the germs capable of producing cholera. This gives the hogs immunity for life, except pigs vaccinated before eight weeks old.

Some losses have been reported from the serum-simultaneous treatment. They are the faults of methods or materials rather than the treatment. Poor serum of low potency and untested is the chief factor in

Injecting the Serum.

the failure of this treatment. Too low doses, or improper application of the serum are all causes of failure.

Records kept on 20,000 hogs show a loss of less than two per cent when treated by the simultaneous method. All were made immune, some for three years.

Here are the facts in waging war on hog cholera by the simultaneous treatment:

Hogs can be made immune. If healthy when treated, and if reliable, tested serum is employed together with good virus, there is no doubt that the serum simultaneous treatment is a success.

Hog cholera serum in any process will give good results on healthy hogs, and better than nothing on sick ones. It must be remembered that hog cholera serum is a preventive, not a cure.

When serum is to be used, first get all the pigs together in a pen so they may be caught easily. Too much exercise before injection is not good for the animal.

Injection may be on inner side of a rear leg or in armpit; either spot must be cleaned carefully, using first warm water and soap and following with alcohol or a three to five per cent solution of carbolic acid.

All vessels and instruments must be sterilized before use and the operator's hands should be cleaned, disinfected and kept so.

STANCHIONS FOR THE CALVES

Youngster Will Not Worry About Neighbor Getting Part of His Mess and Will Drink Slowly.

Harmful results are frequently brought on in young calves by their drinking milk too rapidly and too much at a time.

Feeding small quantities and often, which is the natural plan, is the way to avoid trouble from this source.

Where several calves run together stanchions for feeding may contribute to less rapid drinking, for with stanchions the calf is not worrying about one of its neighbors getting part of his mess and is thus encouraged to drink more slowly.

Distemper in Horses.

Strangles, or as it is commonly known, distemper, is a contagious and infectious disease seen most frequently in young animals. One attack generally produces an immunity which lasts for life, therefore is seldom seen in older animals.

MANY STATES USE CONVICTS

Different Systems of Employing Prison Labor on Public Highway Improvement Is Described.

Thirty states at the beginning of the present year had on their statute books laws providing for the employment of state prisoners in road building. Arizona, Arkansas, Idaho, Louisiana, Maryland, Montana, Nevada, New Jersey, New Mexico, Ohio, Oregon, Virginia and Washington follow practically the same system, providing that the control of this work shall be vested in the state highway commission. The highway commission or state engineer makes requisition for such number of prisoners as he can use effectively, and the prison authorities turn over to him such prisoners as are suitable for the road work.

The prison commission or board of control of state institutions is held responsible for the development of

Convicts Building Good Road.

the convict road work in some nine states—Colorado, Indiana, Iowa, Kansas, Michigan, Missouri, North Dakota, Oklahoma and Wisconsin. State prisoners are turned over to the county authorities to be worked on the county roads in Florida, Georgia, North Carolina and South Carolina. This system is not approved by the national committee on prisons and prison labor, which holds that the state under no circumstances is justified in delegating the responsibility for its convict wards to county authorities.

The system in New York state divides the responsibility for the construction work and maintenance of the camps between the state highway department and the commissioners of the counties in which the roads are to be built, with the state superintendent of prisons in final authority. In Utah, West Virginia and Wyoming the highway department and the prison department co-operate in the control of this work. The prison department is fully responsible for the care and discipline of the prisoners, while the road department is called upon to do the work which it is equipped to do, the building of roads.

The committee has found this latter system essential to the successful development of convict road work. The prison department is in a position to care for the prisoners and to handle such matters as food, clothing, housing, medical attention, the affording of educational facilities and recreation.

GOOD ROADS ARE INCREASING

United States Leads France in Miles of Improved Highways—State Aid Now in Effect.

According to the Good Roads Year Book of the American Highway association, recently issued, America now has 6,000 miles more of good roads than France, the total for this country now amounting to 31,000 miles. Of this 5,000 miles were built in 1912 and about 6,000 in 1914, making a total of over one-third of the entire mileage of the good roads of the country.

New Jersey was the pioneer state to provide state aid for public highways, in 1891, and Massachusetts and Connecticut soon followed, but it is only during the last ten years that the state aid policy has been in effect to any considerable extent.

Los Angeles to Improve.

Seven million dollars will be expended on the roads of Los Angeles in 1915. Three hundred and twenty-four miles of concrete boulevard and 160 miles of decomposed granite highway will be constructed.

MISSOURI SUFFERERS FIND GREAT REMEDY

Thousands needlessly suffer from stomach ailments, handicapped in their work and pleasure. The stomach is the mainspring of life and the body cannot run without it. You want to be well quick.

A great many people in Missouri and thousands all over the country have found the way to health by the use of May's Wonderful Remedy. The first dose shows results. Here are the words of two Missourians:

Mrs. J. B. Trullinger of Norborne, Mo., wrote: "Words cannot express my appreciation of your medicine. I have felt fine all summer and fall. Am gaining weight."

W. T. Jennings, cashier of Bank of Bois D'Arc, Mo., writes: "Please send four more bottles of the stomach remedy. Both my wife and I use this medicine and think it truly wonderful."

May's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

LIVESTOCK MARKET WEAKER

Heavy Runs Bring Cattle Prices Down. Hogs and Sheep About Same. Special to The Democrat-Forum.

Kansas City, Sept. 13.—Price readjustment continues in the cattle trade. The best cattle, both fed and grass, advanced 5 to 20 cents last week, but medium and lower grades sold barely steady, lower in some cases. The supply today is 25,000 head, and the market is slow, prices 10 to 15 lower on a part of the cattle, weak to 10 lower on the bulk. Numerous lots of good fed steers sold at \$9.45 to \$9.65.

Bulk of the cattle came from Kansas, of course, shippers in the pasture country giving the market a trial, and the impression is out that if prices this week are not sufficient to pay out on the cattle, or make a profit, arrangements will be made to go into winter quarters. The best Kansas grass steers were unsold at noon, as arrivals were late today, but numerous sales had been made at \$7.00 to \$8.10, including a string of "J. A." steers at \$7.80, to killers.

There are a large number of stocker and feeder buyers here, but they have their pegs set at a low figure, and the market is weak. Good grades are selling around \$7.25, with fancy cattle up to \$8.25, and common grades at \$6 or less, the latter class being slowest to move. It is a good time to buy for if the threat to put cattle on feed holds good, which has been made in both Kansas and the Panhandle, receipts will not be extra heavy, while there is a great section of country depending on this market for stockers and feeders this fall and in the biggest part of it stockmen are low on cattle.

Quarantine receipts were again light, steers selling at \$5.75 to \$7.50.

Hogs were in light supply, 5,000 head market steady on light hogs, lower on heavy weights. The market is a two-sided affair, demand for fresh pork and smoked meats sustaining prices on hogs suitable for manufacturing that class of product, while the big weight stuff, and mixed packing, are not needed to fill any crying necessity, hence

prices on that kind lag.

The range on bulk of sales today is \$6.50 to \$8.00, all the desirable light weight hogs selling at \$7.50 to \$8.00, while rough heavies sold down to \$6.25. Highly mixed hogs are almost invariably sold in several lots, hog sorting having become imperative recently, as is the sorting of cattle, in order to realize best results for the shipper.

Sheep and lambs arrived to the number of 22,000 head which included 5,000 head of Jim Starr's feeders going through to Missouri points. Fat stock is 10 to 15 lower, best range lambs \$8.50, native lambs \$8.00 to \$8.25. Fat ewes bring \$5.25 to \$6.00, and native black face breeding ewes sell up to \$7.25 or better, common breeding ewes around \$5. Large numbers of western feeding ewes are selling at \$5.00 to \$5.65, good mouth western feeding ewes at \$6 to \$6.75, feeding yearlings \$6.50 to \$7, plenty of all kinds available.

A Railroad Man for Clarissa.

Irvin S. Cobb is responsible for this negro story:

Mose had been hit by a shifting engine in the freight yard, and his parts were so widely dispersed that they had to put him down as a total loss. Even before the engine slowed down the claim agent was on the job, and had his widow in tow, leading her toward the office of the company.

With Clarissa was Hannah, a back fence friend. When the trio reached the railroad office, the agent produced some papers and began filling them in. "Now, then, Clarissa," he said, "all you have to do is sign right here, agreeing to bring no action against the company for your husband's death, and I will make you a present of these five nice, new \$100 bills."

Clarissa's eyes bulged out like a crab's. Hannah turned to her and gasped. "Lan' sakes alive, chile, what yo' gonna do wif all 'at money?"

"Oh, ah'll buy chickens, an' water-melons, an' a new house, an' 'bout a hundred dresses, and jes' whatevah ah needs fo' de resta mah life."

"Don't you need notha husband?" asked Hannah.

Clarissa fanned herself with one of the new \$100 bills.

"Well, ah don't know 'bout dat, but ef ah evah does get married agin, it'll sholy be a railroad man."

The Body of The Monarch

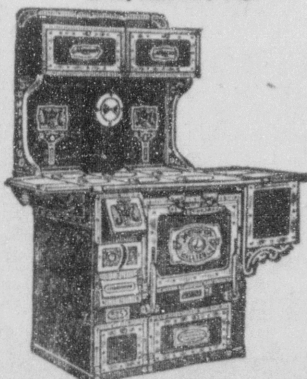

The inside wall is annealed steel, the center wall is of asbestos stove board, the out-wall of American planished steel.

What is Malleable Iron?

The best soft gray cast iron annealed and when thoroughly annealed becomes the best heat transmitting and resisting iron used in range construction. Every joint in the MONARCH is riveted and is gas and air tight. For the rivets are of the same textural temperment as the material they hold together thus making the expansion equal. The construction of the fire box either makes or destroys the life and efficiency of the range and this is the Monarch's strongest point. Let us show you why.

A CORRECTION.

The Base Ball Tournament At Clearmont Was a Success—Hopkins and Clearmont Divided First and Second Money.

In the base ball tournament at Clearmont, which ended Saturday, Clearmont and Hopkins divided first and second money, giving each team \$112.50. Hopkins had won two games refusing to play the last game Saturday against Maitland, who had engaged four players who had been with Clearmont. Clearmont defeated Pickering 4 to 0 on Saturday instead of Pickering defeating Clearmont as stated in yesterday's paper. Pickering and Maitland divided third and fourth money, each receiving \$62.50.

The base ball tournament was a success and if the weather had been good, a nice sum of money would have been realized from the tournament by the Clearmont team. This correction is printed, as the information this paper received yesterday in regard to the tournament was not correct.

MAY LOSE CITIZENSHIP.

Status of Baltimoreans Fighting in Europe Is In Doubt.

Baltimore.—A question of law may arise if the young Baltimoreans now fighting in Europe, John Poe, John Sydney Howell, Alexander Godby and Martin D. Monaghan, attempt to return to their native land. It is held by the department of labor that by taking up arms they have expatriated themselves. This was the finding in the case of Frank Caswell of Harrison, Me., a trooper of the Canadian contingent, who attempted to come home, but was held up by the authorities on the ground that he had ceased to be a citizen of the United States.

Local officials declare that a different light may be thrown on the subject when it becomes known under just what conditions these young Baltimoreans enlisted. If they swore allegiance to the flag under which they aspired to fight they of course ceased to be citizens of the United States, but there appears to be doubt as to just what the foreign powers exact of their recruits.

RICH OCTOGENARIAN AGAIN PROSPECTING

Goes Back to Scenes of Early Success In "Fifties."

Forest, Cal.—The spectacle of an old man, eighty-five years of age, fitting himself out as a prospector and taking his blankets into the hills after sixty years' vacation from the same sort of work proved interesting to the residents of this old mining camp. What made the incident more interesting was the fact that the prospector is a wealthy man and has no need for any more of this world's goods.

The stranger is James C. Chase, who mined in the headwaters of Jim Crow canyon in the early fifties and who took out enough to enable him to live in comfort among his relatives ever since.

He took his "pile" and later invested in the rich apple district in Washington and recently came to California to visit the fair. The call of his early life rang in his ears, and he could not resist the temptation to cover the ground where he made his fortune in his younger years.

Chase was not so successful in his first day's panning as he was in the fifties, but was delighted when he found color in his pan. "I think I could show some of you old miners a trick in this business yet," said Chase to some of the men who have been mining here with indifferent success for years.

The old man does not look more than sixty and says he can stand camping as well as any man of any age. There are few in this old mining town who really remember the old man as a youngster of twenty-five who made a good "cleanup" and left here in 1855.

HIGH SCHOOL PLAYS BALL

Pirates Defeated Tigers 7-2 at Normal Yesterday.—Pirates Play Braves Tomorrow.

The High School fall baseball season began yesterday at the Normal grounds, with a 7 to 2 victory for the Pirates, captained by Kenneth Van Cleve, over the Tigers, captained by Eugene Yehle. The battery for the Pirates was Van Cleve and Egley and for the Tigers, Hagin and Yehle. Each side made six hits, and few errors.

The Pirates will play the Braves, captained by Berney Harris Jr., at the Normal grounds at 4 o'clock tomorrow afternoon.

TO DISCUSS TRAIN CHANGES

Burlington Connection at Creston to be Urged by Civic Club Leaders Here Tomorrow.

A conference of the board of directors of the Maryville Commercial club and representatives of various civic organizations at Barnard, Pickering, Hopkins and Bedford, Iowa, has been called for tomorrow evening in the local Commercial Club rooms, according to W. R. Jackson, club secretary. The purpose of the conference is to discuss the proposed change of the north-bound Burlington passenger train, No. 10, so that connection can be made at Creston with the through east-bound trains. J. D. Baker of St. Joseph, division passenger agent of the Burlington, has signified his intention of meeting with the civic leaders. The Commercial Club held a meeting recently, with representatives of these towns present, for the purpose of suggesting ways to accomplish this improvement.

Trust Company Trial on in Kansas City—Dismiss Indictment Against J. W. Thompson, Reported.

The trial of the defunct American Union Trust company of Kansas City, is being held this week in federal court in Kansas City, the federal grand jury in April, 1914, having indicted five officers and directors of the trust company on charges of using the mails in devising and intending to devise a scheme to defraud.

John W. Thompson, formerly probate judge of Nodaway county, and now living in San Francisco, was one of the men indicted by the grand jury. Thompson having been at that time an officer and director in the Kansas City bank. It is understood that the indictment against Thompson was dismissed, it being on his evidence that these indictments were returned against the other officers and directors of the bank.

The case is being presided over by Judge Wilbur F. Booth and he made this statement, according to the Kansas City Times:

"The evidence may show that some of the defendants did not become connected with the company until some time after its organization. If it is shown by the government that there was a scheme to defraud prior to their connection with the company, it will be necessary for the government to connect the defendants with the scheme. The mere fact that they became connected with the company at a later date does not connect them with any scheme to defraud prior to their connection with the company."

In continuing his statement to the jury Mr. Lynch said it would be shown that certain persons who subscribed for stock in the trust company on its organization did not sign the articles of incorporation. He said J. W. Thompson of Nodaway county gave two notes, one for \$4,000 and one for \$1,000, in payment for stock. John E. Swanger, bank examiner, said the stock must be paid for in cash.

Then, continued Mr. Lynch, J. C. Burch, a \$50 night watchman for Swift & Co., a Nodaway man, was induced to give his note for \$5,000 to the bank. That would be a favor to Thompson and Burch would not be out anything. This note for \$5,000 was approved by the finance committee of the bank, said Mr. Lynch and was allowed as a loan to Burch.

"Burch never got a dollar of the money," exclaimed the assistant district attorney. "But \$2,500 was applied to Thompson's note and the balance went to cover indebtedness of Richardson."

Henry W. Richardson was organizer of the All Night and Day Bank and the American Union Trust Company, and is now said to be in England.

Burch, said Mr. Lynch, was given stock to represent the loan and then Thompson borrowed back the stock, explaining that the bank examiner "was coming around."

"Burch never got his stock back again. He complained to Beery, the secretary of the trust company. Beery told him to employ Davis. And Davis, mind you, was a director of the trust company and its attorney."
